SUMMARY

Passionate developer who embarked on a programming journey as a hobby and seamlessly transformed it into a thriving career, with over a year of hands-on working experience. Committed to continuous learning, I consistently seek innovative ways to deliver enhanced value to customers. With a user-first perspective, ensuring that my skills and solutions align seamlessly with the ever-evolving landscape of technology.

EDUCATION

PONTIFICAL CATHOLIC UNIVERSITY OF RIO GRANDE DO SUL (PUCRS)

Graduate Degree in Full Stack Development, December 2023, Brazil

UNIPÊ - JOÃO PESSOA UNIVERSITY CENTER

Bachelor's Degree in Civil Engineering, December 2019, Brazil

EXPERIENCE

Web developer | Logon: March 2022 – Present

- Modernized the Enterprise Resource Planning (ERP) payment system by incorporating banks' REST APIs. This streamlined the management of client payment records, significantly enhancing the company's client acquisition process.
- Engineered a client management system in collaboration with a facial recognition partner company, overseeing on-site access and attendance tracking.

PROJECTS

- **Manebo (Nextjs, Tailwind, TypeScript, PostgreSQL)**
 - Development of a robust Enterprise Resource Planning (ERP) application designed to efficiently manage recurring business client data.
 - Leveraged a cutting-edge tech stack including Next.js, Tailwind, TypeScript, and PostgreSQL to create a seamless and responsive user experience.
 - Implemented an automated workflow with continuous integration and continuous deployment using GitHub and Vercel, optimizing the development and deployment process for increased efficiency.
- **Daily Water Reminder (React, Firebase, TypeScript)**
 - Developed a Progressive Web App (PWA) for monitoring users' daily water intake, promoting healthy hydration habits.
 - Implemented secure social authentication using Firebase and Google Cloud, ensuring a robust and user-friendly login system.
 - Established continuous integration through GitHub workflow actions hosted on Google Cloud via Firebase, enhancing project scalability and efficiency.

TECHNOLOGIES

- TypeScript, JavaScript, PHP, SQL, HTML, CSS, Tailwind, Nextjs
- Git, React, PostgreSQL, MySQL, Firebase, Nodejs

LANGUAGES

- Portuguese (Native)
- English (Business)
